

WOODY★★★

WOOD FLOOR GRINDING NOT SANDING!

Our WOODY series of vacuum brazed Diamond Shoes and Cups are the solution for wooden floors. Durability, lifetime and performance gives WOODY the advantage over conventional floor sanding with sandpaper. WOODY cannot rip or break when striking nails, bolts or lippage. The WOODY Cup Wheels complement the system as an edge grinding solution or general grind. When operated on any planetary floor grinding machine, WOODY will provide an even and homogeneous result, even for the novice or DIY user, with no previous experience.

APPLICATIONS

- House floors
- Outdoor decks
- Parquet
- Benchtops

WOODY ADVANTAGE OVER SAND PAPER

- Strong, durable and can handle nails & staples
- Very long lifetime
- Easy to use, anyone can do it
